

# EZ Wealth x Tradetron

Best in class Algorithmic Trading is here!

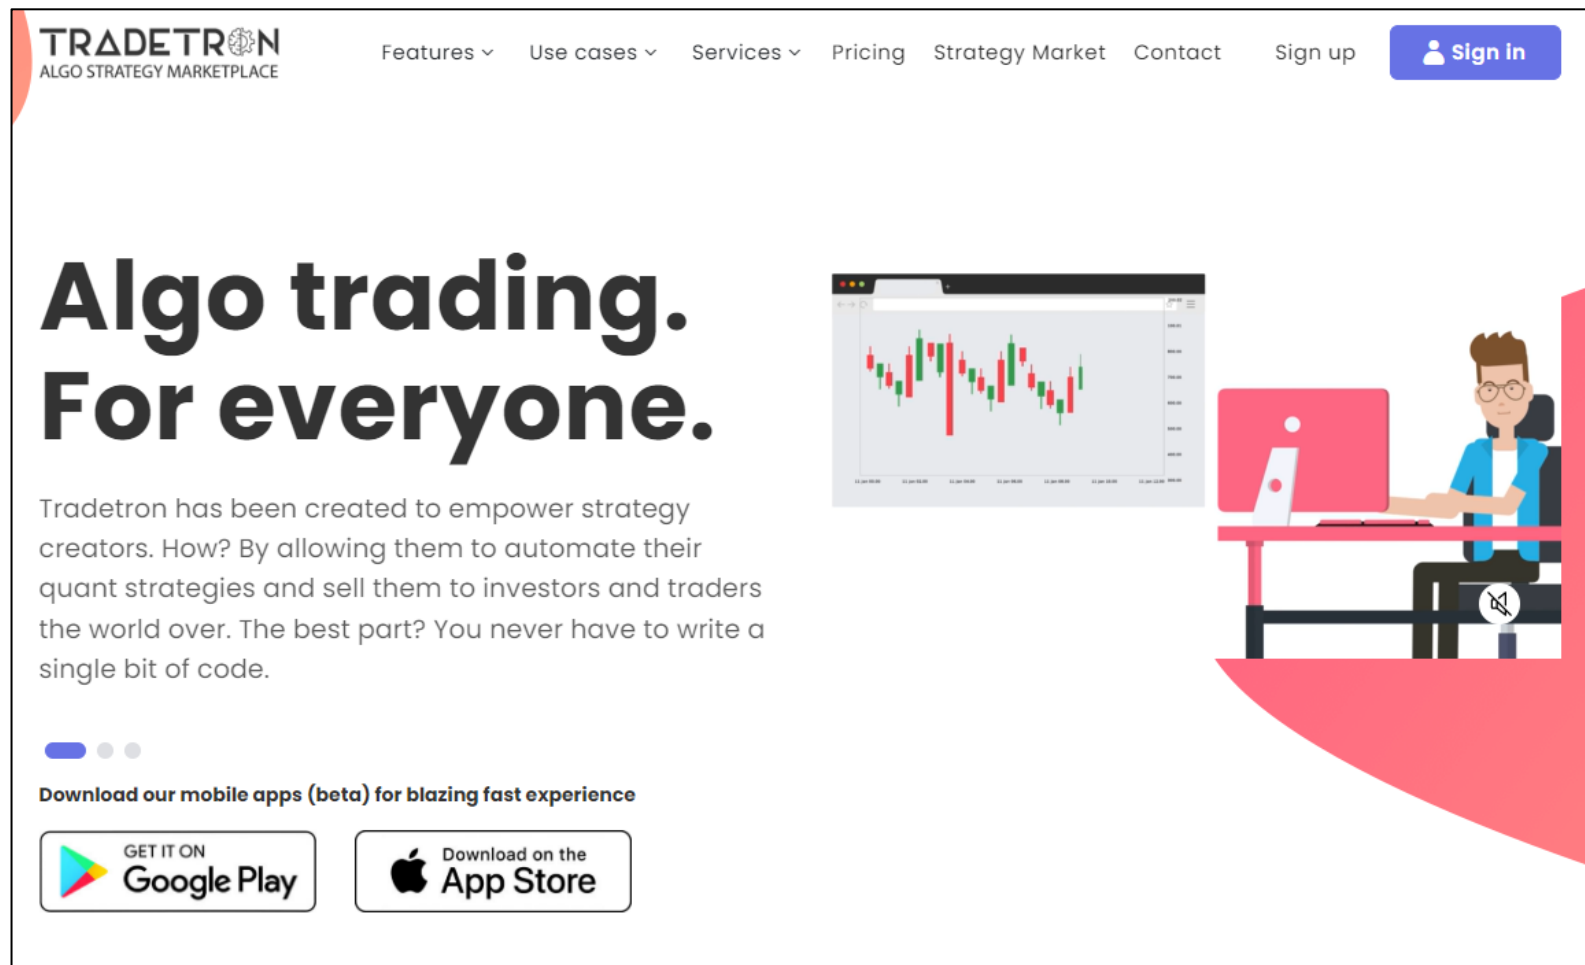

# Tradetron Integration

EZ Wealth has always endeavoured to stay at the forefront of innovation and that led us to collaborate with Tradetron.

**Tradetron** is a multi asset, multi-currency, multi exchange Algo Strategy marketplace which allows people to create algo strategies using state of the art, patent pending, web based strategy builder, which allows you to point and click to create conditions and positions which form the building blocks of a algo strategy.

Once created, the same can be listed on the marketplace where people can subscribe them and in turn take those trades in their own brokerage accounts.

The screenshot shows the Tradetron website homepage. At the top left is the Tradetron logo with the tagline 'ALGO STRATEGY MARKETPLACE'. To the right of the logo is a navigation menu with links for 'Features', 'Use cases', 'Services', 'Pricing', 'Strategy Market', 'Contact', 'Sign up', and a 'Sign in' button. The main heading is 'Algo trading. For everyone.' Below this is a paragraph: 'Tradetron has been created to empower strategy creators. How? By allowing them to automate their quant strategies and sell them to investors and traders the world over. The best part? You never have to write a single bit of code.' To the right of the text is an illustration of a person sitting at a desk with a computer monitor displaying a candlestick chart. Below the text and illustration are three dots, with the first one highlighted in blue. Below the dots is the text 'Download our mobile apps (beta) for blazing fast experience'. At the bottom are two buttons: 'GET IT ON Google Play' and 'Download on the App Store'.

# Tradetron Sign-in

After logging in, the Dashboard is the first page you will see.

Within **Strategies**, you will find options like the marketplace, from where you can browse through various strategies that posted on the website; you can create your own strategies from here and a lot of other important features.

**Services** options helps you learn from experts and helps you start creating your own algo rules

**My Subscribers** helps interact with the subscribers of your algo and also helps you see revenue generated by you.

The screenshot displays the Tradetron dashboard interface. At the top, the logo 'TRADETRON ALGO STRATEGY MARKETPLACE' is visible alongside navigation links for 'Dashboard', 'Strategies', 'Services', 'My Subscribers', and 'Reports'. A user profile icon and a yellow notification bubble are also present. Below the navigation bar, there are summary statistics: 'P&L: ₹ -86', 'Capital: ₹ 20.00 k', and 'Value(Pos): -10.87 k(1)'. The main section is titled 'Deployed Strategies' and includes a table with columns for 'Strategy (Counter)', 'Execution', 'Open | Total Positions', 'Multiplier | Status', and 'Total P&L'. A single strategy is listed: '+/- 2% Gorilla Strategy (1)' by 'srijpriya', with an execution of 'LIVE AUTO ONE CLICK at Wealth Discovery', 111 open positions, a multiplier of '1x | Active', and a total P&L of '-86'. Below the table, there are navigation buttons for 'Market Watch', 'Open Positions', 'Greeks', 'Order book', and 'Notifications'. The 'Market Watch' modal is open, showing a 'Watch List Name' input field and 'Save' and 'Cancel' buttons.

# Adding Broker

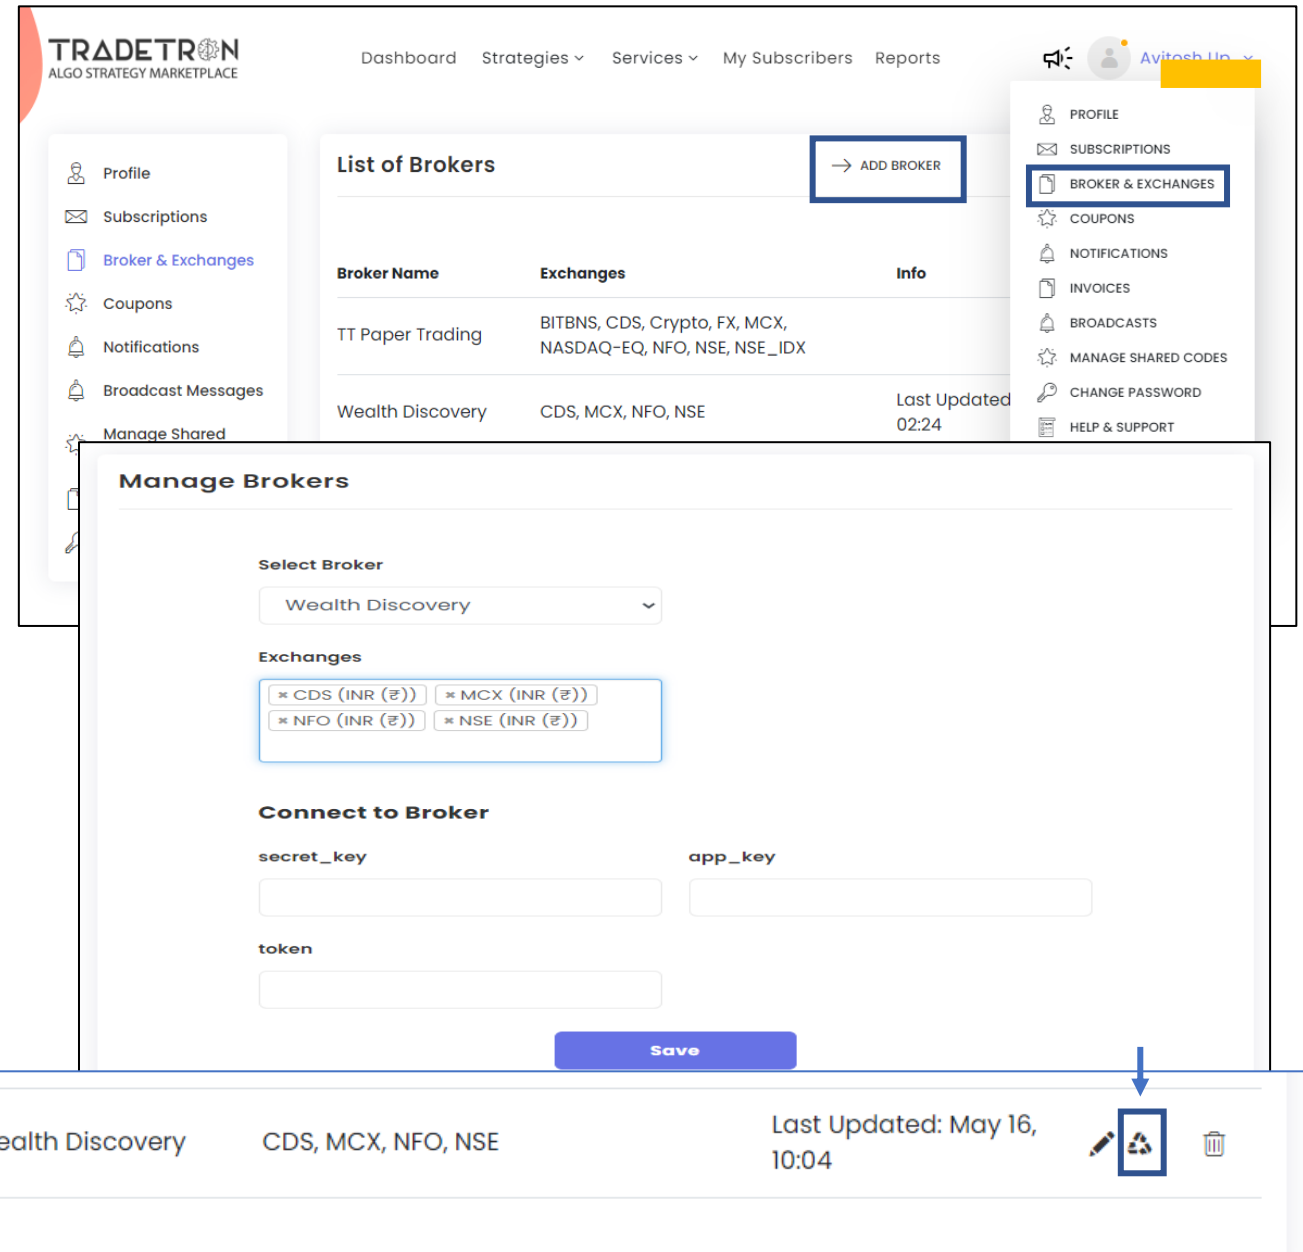

To start trading using algo, one must **map their broker** account with Tradetron. To do this, click on the drop down icon in the top right corner and select **Broker and Exchanges**.

In the page that opens, click on **Add Broker**. In the page that opens, select your broker from the list of brokers that are available. Next, select the exchanges you would like to trade in.

Request for **Secret Key** and **App Key** by connecting with EZ Wealth Representative and click on Save. Token field should remain blank. This broker will then appear in the List of Brokers after saving, as shown above.

Click on the small Triangle option on the right of the name of the broker, which says **Regenerate Token**. Token has to be generated every time the clients logs in to Tradetron after logging out, otherwise broker API will not connect with Tradetron and trades won't go through.

Therefore, right after logging in, regenerate token and then deploy strategy.

The screenshot displays the Tradetron ALGO STRATEGY MARKETPLACE dashboard. The top navigation bar includes 'Dashboard', 'Strategies', 'Services', 'My Subscribers', and 'Reports'. A user profile dropdown is visible in the top right corner, with 'BROKER & EXCHANGES' selected. The main content area shows a 'List of Brokers' table with columns for 'Broker Name', 'Exchanges', and 'Info'. A 'Manage Brokers' modal is open, allowing the user to select a broker (currently 'Wealth Discovery') and choose exchanges (CDS, MCX, NFO, NSE). The modal also includes fields for 'secret\_key', 'app\_key', and 'token', along with a 'Save' button. A blue box highlights the 'ADD BROKER' button in the 'List of Brokers' table, and another blue box highlights the 'Regenerate Token' icon in the 'Manage Brokers' modal. A third blue box highlights the 'Regenerate Token' icon in the 'List of Brokers' table, with an arrow pointing to it from the 'Manage Brokers' modal.

# Selecting Strategy

After adding your broker, go to the Strategy section and click on **Marketplace**. Here, you will find all the strategies created by all the creators on the Tradetron platform.

On the left pane, you can filter the strategies as per your liking.

After you have chosen the strategy you like, click on **Subscribe** which appears on that very strategy. If it's a paid strategy, you would be required to pay upfront.

This strategy will now appear in **My Strategy** option in the Strategy dropdown at the top

The screenshot shows the Tradetron Algo Strategy Marketplace interface. The top navigation bar includes 'Dashboard', 'Strategies', 'Services', 'My Subscribers', and 'Reports'. A user profile dropdown is visible on the right. A search bar is located at the top left of the main content area.

On the left side, there are several filter sections:

- Sort by:** Latest, Min Fees, Max Deployment, Min Capital.
- Tags:** Arbitrage, Bearish, Breakout, Bullish.
- Exchanges:** NSE - India Equities, CDS - India Currency, NFO - India FNO, MCX - India Commodities.
- Fixed Fee:**  Free,  Paid.
- Favorite:**  Strategies.
- Reset** button.

A dropdown menu is open over the 'Strategies' link, showing options: CREATE, DEPLOYED, **MY STRATEGIES** (highlighted), MARKETPLACE, TOP CREATORS, and BACKTEST.

The main content area displays a list of strategies:

- Strategy US:** Trades/-Costs: 541 (\$ 10.8 K), Drawdown: \$ 2.8 K (46%), Min Capital: \$ 6 K, Monthly Fee: Free. Includes 'Subscribe' and 'Duplicate' buttons.
- SAR - DIA:** created: 3 years ago | live deployment: 0. Trades/-Costs: 197 (\$ 3.9 K), Drawdown: \$ 88.8 (9%), Min Capital: \$ 1 K, Monthly Fee: \$ 50. Includes 'Subscribe' button.
- Stochastic Directional Strategy - USA:** created: 3 years ago | live deployment: 0. Drawdown: \$ 42.3 (8%), Min Capital: \$ 500, Monthly Fee: Free. Includes 'Subscribe' button.

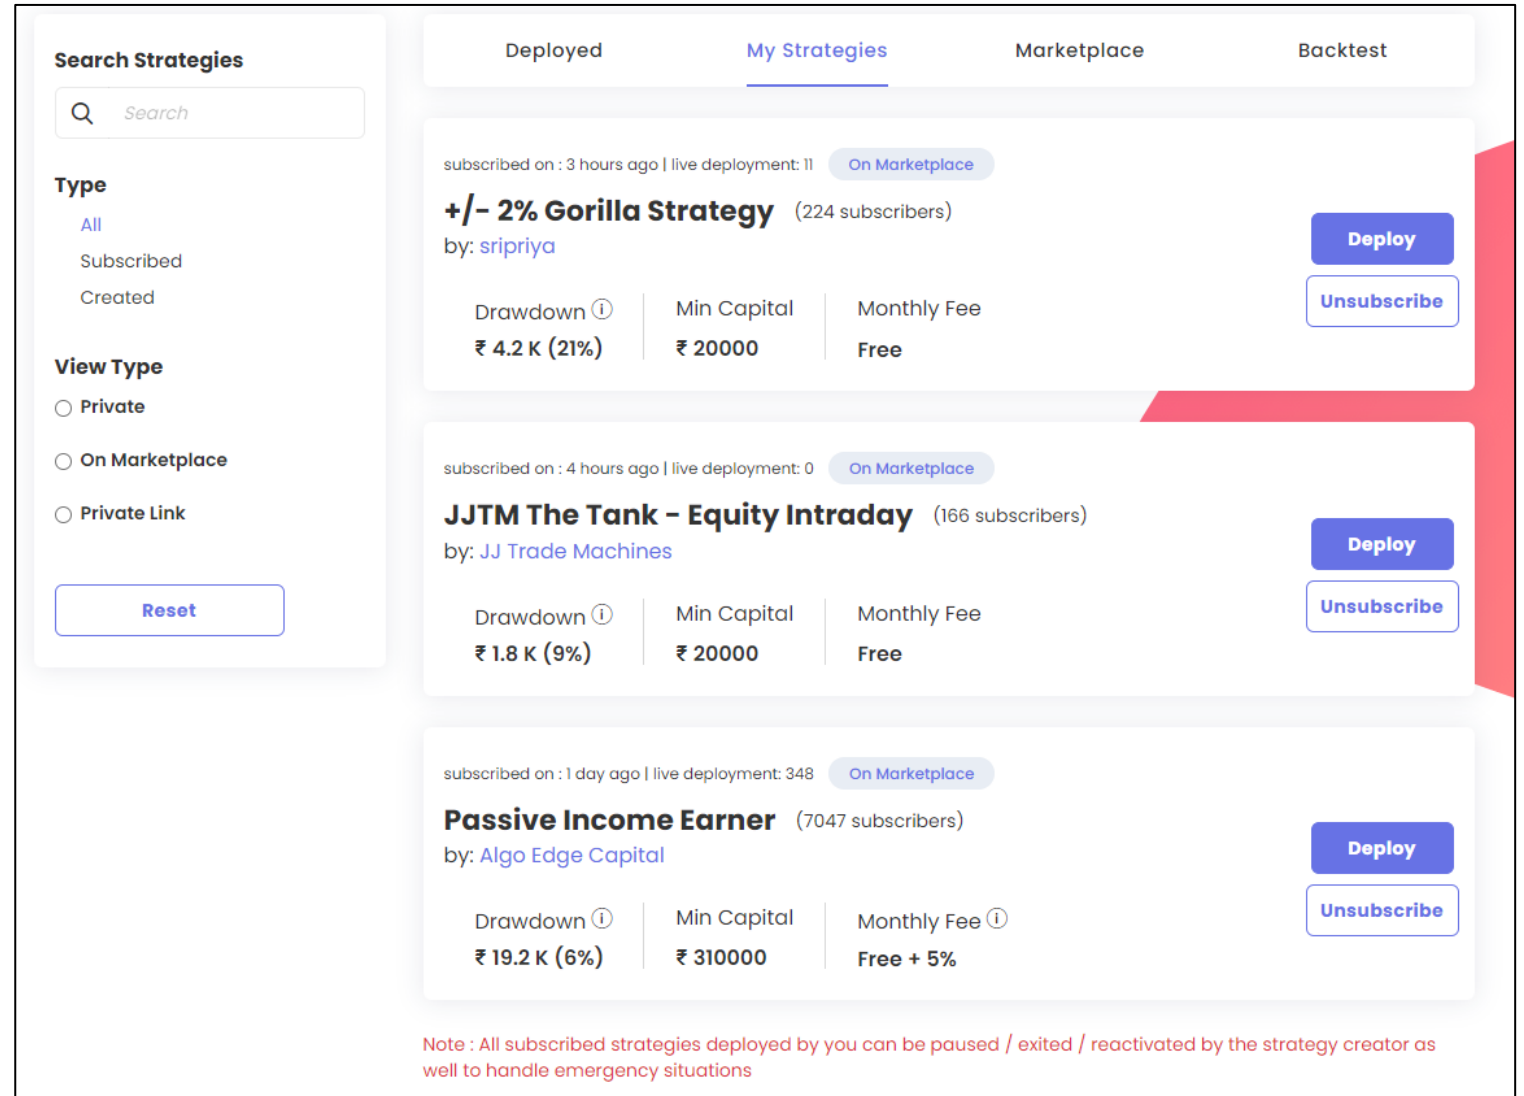

# Deploying Strategy

After subscribing to the strategy, click on My Strategies in the Strategy dropdown and a page similar to the one adjointed will open. Here you will find the list of strategies subscribed by you.

From here, you have to deploy the strategy that you think would be fit given the market movement that very day.

Once you click on **Deploy**, you would be requested to select your broker and the type of execution. **'Live Auto – one click'** execution type means that the terminal will prompt you when the entry criteria matches and you would be taking the trade manually.

**Live Auto** is entirely automated where the trade would be taken automatically when entry criteria is met. Live Auto is a paid feature, whereas, Live Auto – one click is a free to use

The screenshot displays the 'My Strategies' page in the ez wealth interface. The page is divided into several sections:

- Search Strategies:** A search bar with a magnifying glass icon and the text 'Search'.
- Type:** A dropdown menu with options: All (selected), Subscribed, and Created.
- View Type:** Radio button options: Private, On Marketplace (selected), and Private Link.
- Reset:** A button labeled 'Reset'.
- Strategy List:** A list of three strategies, each with a 'Deploy' and 'Unsubscribe' button.
  - Strategy 1:** '+/- 2% Gorilla Strategy' (224 subscribers) by sripriya. Drawdown: ₹ 4.2 K (21%), Min Capital: ₹ 20000, Monthly Fee: Free. Deployed on 3 hours ago, live deployment: 11. Status: On Marketplace.
  - Strategy 2:** 'JJTM The Tank - Equity Intraday' (166 subscribers) by JJ Trade Machines. Drawdown: ₹ 1.8 K (9%), Min Capital: ₹ 20000, Monthly Fee: Free. Deployed on 4 hours ago, live deployment: 0. Status: On Marketplace.
  - Strategy 3:** 'Passive Income Earner' (7047 subscribers) by Algo Edge Capital. Drawdown: ₹ 19.2 K (6%), Min Capital: ₹ 310000, Monthly Fee: Free + 5%. Deployed on 1 day ago, live deployment: 348. Status: On Marketplace.

Note : All subscribed strategies deployed by you can be paused / exited / reactivated by the strategy creator as well to handle emergency situations

# Managing Trade

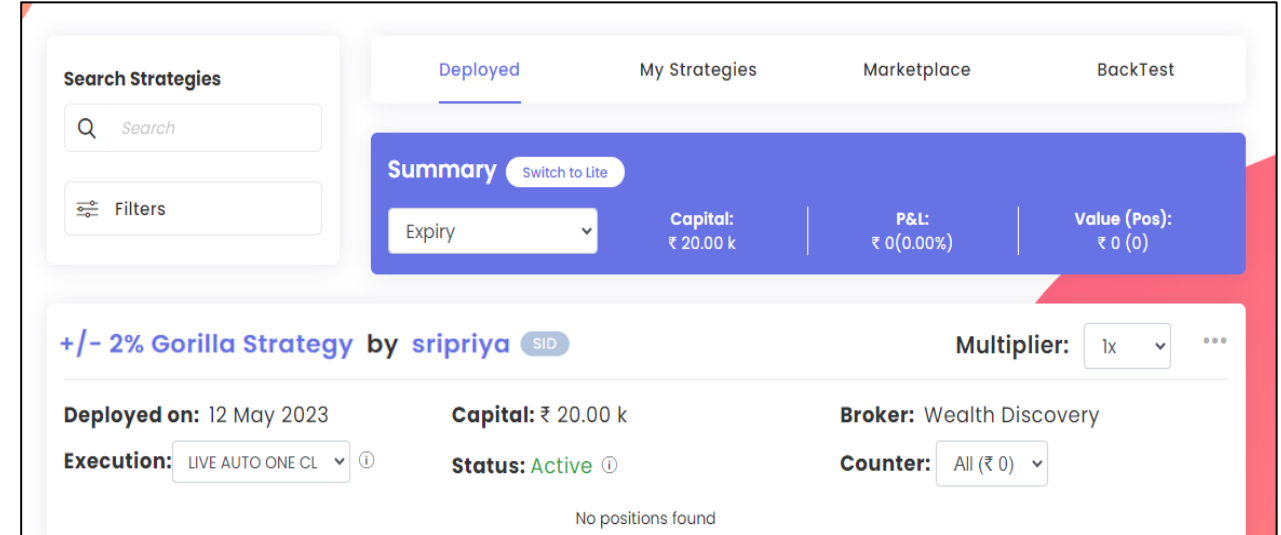

After you have deployed the strategy, it will appear in **Deployed** option of Strategy section.

The status is important here to note. **Active** means that the strategy is live but is waiting for the scrip to meet the Entry criteria.

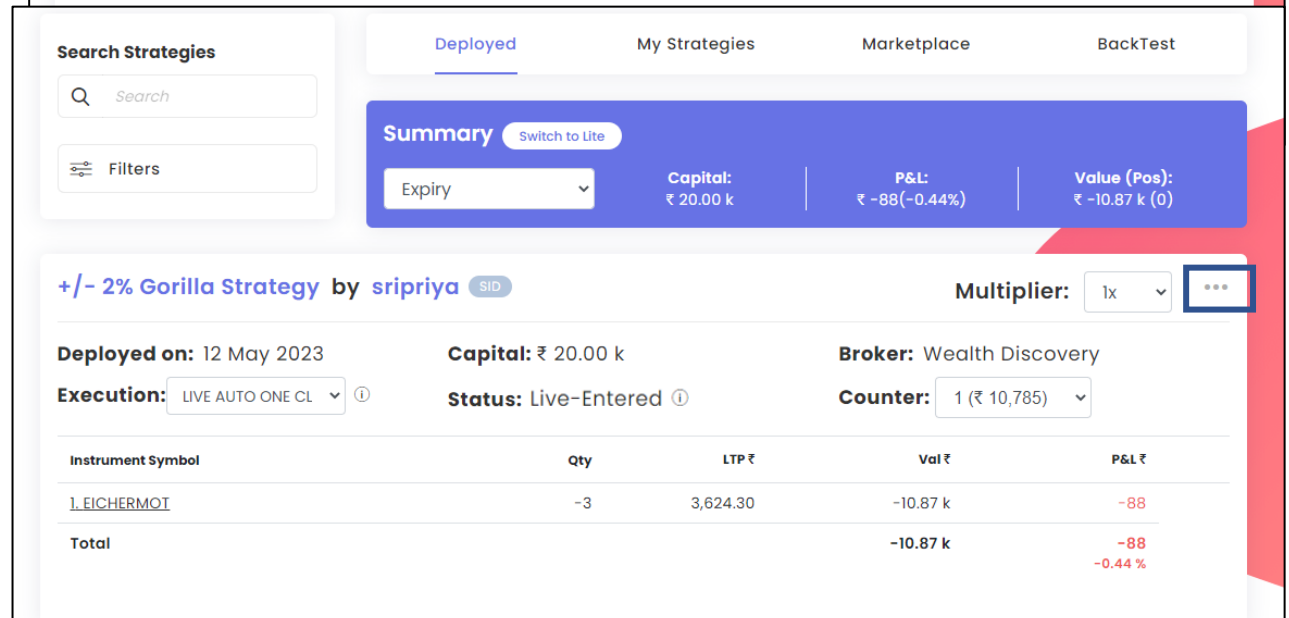

**Live-entered** means the order has been sent to your broker, executed and the trade is live now.

If your execution method is **Live Auto One Click**, then you would be required to click on 'Enter' which will appear to the right of Status after the entry criteria are matched by the scrips. You will get notified via mail and also by sound notification that the strategy has found a trade and is waiting for action

To exit the trade manually, click on Exit which appears in the drop down after clicking the three dots options in the right corner as shown in the image aside.

The screenshot shows the 'Deployed' tab for a strategy named '+/- 2% Gorilla Strategy by sripriya'. The status is 'Active'. The capital is ₹ 20.00 k, P&L is ₹ 0 (0.00%), and Value (Pos) is ₹ 0 (0). The execution method is 'LIVE AUTO ONE CL'. The broker is 'Wealth Discovery' and the counter is 'All (₹ 0)'. There are 'No positions found'.

The screenshot shows the 'Deployed' tab for the same strategy, but the status is now 'Live-Entered'. The capital is ₹ 20.00 k, P&L is ₹ -88 (-0.44%), and Value (Pos) is ₹ -10.87 k (0). The execution method is 'LIVE AUTO ONE CL'. The broker is 'Wealth Discovery' and the counter is '1 (₹ 10,785)'. A table shows the trade details:

Instrument Symbol	Qty	LTP ₹	Val ₹	P&L ₹
<u>L.EICHERMOT</u>	-3	3,624.30	-10.87 k	-88
Total			-10.87 k	-88 -0.44 %
